

## IMPORTANT INFORMATION RE: SCREEN CHANGE IN PAY.GOV

On August 14<sup>th</sup>, 2006 an updated version of Pay.gov, the program used to satisfy electronic filing fees in CM/ECF, will be available. Although the majority of changes in the new version are invisible to end users, there is one screen change that is important to note.

A new “Security Code” field has been added to the credit card information screen. Although this field is highlighted and the “Help” file indicates it is a required field, **please be advised that security code information is optional**. As there is no red asterisk next to the field, it is NOT REQUIRED. Please see the example below, and do not hesitate to contact the Clerk’s Office should you have further questions.
